Paris, July 14 .- An Anarchist named Francols tried to shoot President Faure to-day. The bullet of the would-be assassin did not strike M. Faure.

Francols was immediately arrested and narrowly escaped being lynched. The shooting took place while M. Faure, in an open Carriage, was being driven into the grounds at Longchamps for the purpose of reviewing the troops. President Faure was accompanied by Premier Meline and Messrs. Bolsheffee and Tournier. At the entrance of the grounds Francols, who is forty years old and was well dressed, stepped out of the crowd and discharged his revolver. There was great excitement, and the crowd immediately made a rush at

Many Conservatives admit that if it were not for the hopeless divisions that exist be-tween the Liberals and Radicals the Government would be in a serious plight, as the Land bill is the second Government measure of supreme importance introduced at this session of Parliament which is now being wrecked on lines laid down by the Government. A few more bills like the Education bill and the Irish Land bill if wrecked by pressure within the party will be sure to bring the Conservative party to such a difficult pass as will necessitate the reconstruction of the Ministry, an end to which Mr. Chamberlain, who supplies the real force of the present pressure, would T. "It is hard," says the Standard, "to massacre the innocents, but there is no kindness in allowing them to linger to an inglorious end."

Demand More Changes.

The political situation has been only partially relieved by the yielding of Gerald Balfour to the pressure for modification of the amendments to the Land bill. There is a continuance to-day of the demands ot Mr. Russell and others for further modifications of the measure, while the press and people generally are giving expression to sentiments of extreme disgust at the febleness displayed by the Government.
